

Thank you for choosing Consultants in OBGYN for your pregnancy care! The staff here at Consultants are committed to helping you have a happy and healthy pregnancy.

This is an exciting time for many women, but it can also be one for questions and concerns. If you have a question, please do not hesitate to call the office, or send your provider a message through your patient portal. We also have frequently asked questions and information posted on our website, www.consobgyn.com.

A good alternative resource for pregnancy questions is the American College of Obstetrics and Gynecology website at www.acog.org/publications/patient_education.com. There you can click on any topic to learn more.

If you ever have an emergency outside of business hours, such as severe pain, unable to keep food or water down, vaginal bleeding or possible labor, please call the main office number and follow the instructions to reach the on-call physician. If your call is not returned within 30 minutes, please call the Labor and Delivery department at Presbyterian/St. Luke's Medical center. All Non-Urgent matters can be handled by calling our main number during regular business hours.

The above information is also listed on our website, and all important contact numbers and addresses are listed below. Again, if you have ANY questions or concerns, please do not hesitate to contact us! Congratulations on this exciting new adventure!
